V Numb. 421

The Daily Courant.

Friday, December 17. 1703

From the Amſterdam Gazette, dated Dec. 21.

From the Camp of the Duke of Vendome *at* Montecuco, December 4.

THE frequent Excurſions of the Savoyards as far as Cazal and Valene, to ſurprize our Convoys and our Officers Baggage; have oblig'd us to quit the Camp of Coranato to remove hither. The Courier that was ſent to Court for Inſtructions relating to the Winter Quarters, arriv'd here on the 2d, and yeſterday the Horſe began to march into their Quarters, and the Foot are about to do the like. The Head Quarters are fix'd at Cazal, and the Troops will be diſpos'd for the moſt part between the Po, the Tanaro, and the Bormia. It was thought our Winter Quarters might have been extended as far as Cheraſco and Cairo; but the Garriſon of the little Town of Alba having repuls'd a Detachment of Dragoons ſent by the Duke of Vendome to attack it, killing one Captain, and taking another Priſoner with ſome Horſes, we can extend them no further on that ſide than to Ciſterna, which we are fortifying. To keep open the eaſier Communication with the Army on the Secchia, ſome Troops will be diſpos'd along the Po towards Pavia and Piacenza, and Monſieur de Bezons is order'd to ſettle Quarters accordingly. Thus our Army will Quarter in the Territories of Aſti, Aqui, Alexandria, Valene, Cazal, and Novare, as far as Pavia. The Army on the Secchia will be extended to the Teſin. We know not yet in what manner the Imperialiſts intend to quarter this Winter. We have Advice, That the Marſhal de Theſſe will come to command on the Secchia, in the room of the Prince of Vaudemont who is retir'd to Milan, and that the Duke de la Feuillade will command in Savoy.

From the Amſterdam Courant, dated Dec. 20.

Turin, Dec. 5. The Fight between the Marqueſs de Parella and a Detachment of the French at Iſola between Aſti and Alba, mention'd in our former, in which the Enemy was defeated, is confirm'd; tho' the loſs of Men kill'd on their ſide does not appear to be ſo great as we at firſt reported; but our Men took ſome Priſoners and 200 Horſes. We have begun to make Additions to the Fortifications of this City. Horſes are brought hither out of Switzerland daily, for mounting the new rais'd Cavalry. Our Duke has reſolv'd to chooſe 4000 Men out of the 12 Provincial Regiments, and to incorporate them into his Regular Troops, the reſt are to return to their ſeveral Homes, there to continue unleſs there ſhould be an abſolute need of them. A French Trumpeter is come to Chieri, being ſent by the Duke of Vendome to his Royal Highneſs to inform him, that the Troops of the Allies which deſign'd to relieve Landau were beaten by the Marſhal de Tallard and the Place taken.

Letters from Switzerland of the 12th of this Month tell us, that the Cantons of Bern and Fribourg have nominated 2 Deputies to go to the Marſhal de Theſſe, to deſire him to deſiſt from Hoſtilities in Savoy. Which Deputies arriv'd on the 11th at Lauſanna, and were to go from thence the 12th to Geneva, where they are to move the Republick to joyn a Deputy of theirs with them, the better to compaſs the end of the Negotiation they are ſent upon.

Vienna, Dec. 8. The Rebels in Hungary are grown very formidable, and are poſſeſs'd of a great many conſiderable Towns. General Schlick is entred into Presburg with 2 Regiments, on Advice that Berezeni was advanc'd within 2 Leagues of that Place with a conſiderable Body. The Inhabitants of the open Country begin to ſend their beſt Effects hither. There is a talk now, of ſending Deputies to treat with the Rebels, and hear their Grievances and Demands.

Frankfort, Dec. 16. The Elector of Bavaria began to attack Ausburg on the 8th, and continues to play upon it from 4 Batteries. 'Tis confirm'd that the Plague is very rife in Ulm, which makes the Soldiers garriſon'd in it deſert apace to avoid the Infection.

Ruremonde, Dec. 19. On the 17th the Articles of the Capitulation of Gelder were concluded, and yeſterday the Pruſſian Troops were put in Poſſeſſion of one of the Gates. The Garriſon is to march out on the 21ſt with 2 Pieces of Cannon, and be conducted to Louvain or Mechlen.

Lille, Dec. 17. We have receiv'd the following Account from Antwerp. 'The Night between the '7th and 8th inſtant, a violent Storm of Wind aroſe 'which held till Sunday Morning the 9th. Its fury 'was felt through all our Provinces. The publick 'and private Buildings have receiv'd more Damage 'than can eaſily be believ'd. Our Bridge of Boats 'over the Schelde was blown to pieces. 20 or 30 'Veſſels lying along our Key were ſtav'd and ſeveral 'Perſons drown'd. Bruges ſuffer'd very much, and 'the Loſs ſuſtain'd by Ghent, Mechlen, Louvain, and 'Bruſſels, is computed at ſeveral Millions. The open 'Country ſuffer'd moſt, ſeveral Churches, Steeples, 'Houſes, and Barns, being blown clear down. A 'vaſt number of Veſſels were loſt on the Coaſt of 'Flanders, the particulars are not yet known, but 'we are aſſur'd that above 100 were run aſhore or 'ſtav'd in pieces near Oſtend, and that almoſt half 'that Town is blown down. The Paſſage-Boat that 'goes daily from Antwerp to Bruſſels was overſet, 'and 40 Perſons that were in it drown'd.

From the Amſterdam Gazette, dated Dec. 21.

Paris, Dec. 12. 'Tis ſaid the Duke of Berwick will certainly begin his Journey to Spain next Month, to command the 12000 Men which the King ſends thither. The Walloon Regiments are in full March towards that Country. The Duke de la Feuillade is gone from hence to take upon him the Command of the Troops in Savoy, in the room of the Marſhal de Theſſe. All the Men of War at Thoulon are order'd to be laid up, except 10. We have Advice from Ulm, that the Count de Marſin is arriv'd there; and that the Elector of Bavaria ſeeing the Army of the Allies was ſeparated to march into Winter Quarters, has taken that occaſion to lay Siege to Ausburg. Yeſterday the Cardinal d'Etrees arriv'd here, and to day the Marſhal de Tallard. On the 8th in the Morning we had a moſt violent Hurricane of Wind, by which ſeveral Churches, and other publick and private Buildings have ſuffer'd much Damage; but we hear it did more Miſchief in the Country, and

we

we are afraid we ſhall have bad News from our Ports.

Some Advices ſay, the Town of Elbing has open'd her Gates to the King of Sweden. But it ſeems to want Confirmation.

The Prints that came in this Mail from Holland, make no mention of Admiral Callemberg.
